

MADE IN SPACE

LECTURE FOR GROUPS

You are made of stardust and remnants of the Big Bang. It is mindblowing, but true.

In Planetariums prize winning exhibition Made in Space we will take you on a journey. We need to look at how the water in our body came into being with the help of the Big Bang, how iron in our blood was formed in stars and what the connection is between our sense of taste and supernovae.

Look forward to learning the truth about our existence on Earth in the most fantastic location in the Planetarium in central Copenhagen.

Planetarium

Lecture for groups in the exhibition area Made in Space
Available in English or Danish

Price

DKK 200 per person incl. entrance and lecture

Min. 50 participants - max. 160 participants
