

ROUNDRIP TO THE MOON

LECTURE FOR GROUPS

In 1969 the first humans travelled to the Moon to walk on its surface. Let us take you on the same journey and venture onwards to some of the other 198 moons in our solar system.

On Northern Europe's largest dome we travel together to discover moons made of ice, moons with volcanoes and moons where there may even be life.

Enjoy a fantastic experience where we lead you through a narrative and sensory saturated journey you'll never forget.

Lecture and film for groups in The Dome
English or Danish

Price

DKK 250 per person incl. entrance fee, lecture and film
Min. 50 participants - max. 278 participants
